1. SCOPE OF THE PRIZE

The Purina BetterwithPets Prize ("BetterwithPets Prize") is a search across Europe, the Middle East and North Africa for leading innovations focused on enriching the lives of pets and the people who love them by Nestlé Purina PetCare EMENA, a Division of Nestlé Enterprises S.A. ("Purina"), a Swiss based entity. Purina is partnering with Ashoka, the world's leading network of systems-changing social entrepreneurs, to search for and support piloted/implemented innovations and idea-stage innovations that harness the mutual positive power of the pethuman bond. For this Prize, we are looking at initiatives leveraging the power of cats and/or dogs ("Pets"). It is designed to recognize innovations that demonstrate strength in the Evaluation Criteria as defined by Purina in these official rules ("Official Rules").

Such innovations are clustered in two streams ("Innovation Stream"):

- 1. Piloted/implemented innovations ("Piloted/Implemented Innovation"):
 The BetterwithPets Prize is looking for social and commercial enterprises, non-profit entities and organisations who seek to harness the mutual positive power of the pethuman bond through existing projects.
- 2. Idea-stage innovations ("Idea-Stage Innovation"): The BetterWithPets Prize is looking for young changemaker(s) from 18 years to 25 years old who have a well-thought through idea and/or have conducted research in order to create a project or venture which looks to harness the mutual positive power of the pet-human bond.

Fields of achievement of the innovation include, but are not limited to:

- Leveraging the pet-human bond to help develop key emotional and behavioural competences in children and adults (such as empathy, compassion, emotional intelligence and collaboration) as well as enabling both people and Pets to learn from each other and cultivate emotional self-care to overcome societal issues such as violence, abuse, or abandonment.
- Bringing the power of the pet-human bond to the community level to promote inclusivity by connecting and convening people and Pets, helping them overcome disconnection and isolation.
- Enhancing physical health and wellness through pet therapies, or by enabling people and Pets to live a healthier life.
- Re-imagining the role of Pets in society.
- Revolutionizing veterinary care for Pets.

The BetterwithPets Prize will be awarded to those innovation(s) who submit the best application at the BetterWithPets platform ("Entry") in each of the two streams: (1) Piloted/Implemented Innovation and (2) Idea-Stage Innovation as determined by the BetterwithPets Forum Panel in accordance with these Official Rules.
