

Looking to scale your impact?

IMPACT
PROGRAMME 2023

The Impact Programme 2023: "Scaling Systemic Change for People & Planet" is an accelerator for social entrepreneurs active in the fields of circular economy & climate change. The programme is built to support social entrepreneurs in scaling their impact. Apply to the programme until March 31st!

ASHOKA

Why

Climate change and environmental degradation are the world's most pressing challenges causing a wide range of unprecedented damage.

How

To overcome the planetary crisis we find ourselves in, we need new circular models and solutions at scale to have deep societal impact.

What

The Impact Programme supports social entrepreneurs in developing their scaling strategy through expert led seminars, weekly individual coaching sessions and networking opportunities.

Is this you?

- **Operational** since minimum 1 year (profit or non-profit)
- **Active in Belgium** or having concrete plans to scale activities to Belgium
- **Proven** environmental/social **impact**
- **Innovative** products, services or ways of working that create environmental/social impact
- Changemaker with **motivated team** with at least 1 leader available for 1 day per week to follow the programme (from May to November 2023 (with Summer break in July & August))
- Have a **functioning economic model** (tried and tested model)

Are you aiming at...

- Achieving systemic **change**
- Developing an end-to-end and inclusive **solution** (people and planet)
- Building a societal mindset shift towards **sustainability**
- Uniting partners across sectors to **scale** their solution

Then ...
